

# CONTAINER DOOR SECURITY LOCK

**A high security locking device, designed specifically for container door handles typically found on shipping containers and commercial vehicle 'barn doors'.**

Manufactured from 304 stainless steel throughout and fitted with an integral high security padlock body, the lock is extremely secure, robust and highly durable.

A moulded PUR protection cap slips over the key entry on the lock body and eliminates ingress of grit and salt thus increasing the life of the lock.

Offers added security for plastic customs seals.

Optional 5mm stainless steel TIR wire cable (1080mm long) available for securing two door gear sets (left & right hand).

**1818/001**

Container Door Security Lock

**1818/002**

Security Lead (1080mm)
