

Commercial Vehicle

HGV TRAILER

The roots of Albert Jagger lie in commercial vehicles and the commercial vehicle industry makes up a large part of our business. We work with leading designers and vehicle engineers to provide our customers with an unbeatable range of products that enhance the safety, usability and efficiency of their commercial vehicles.

For more than 135 years, Albert Jagger have been the market leaders in transport hardware for commercial vehicles. We manufacture and supply an enormous range of commercial vehicle body hardware, ranging from body fittings and cargo control to spray suppression and a versatile range of handles, locks and latches.

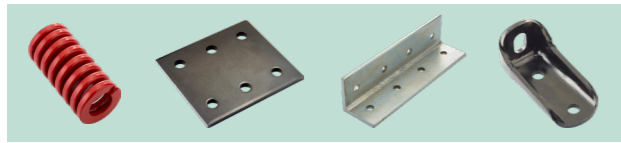

Supply Without Compromise

Transport Hardware

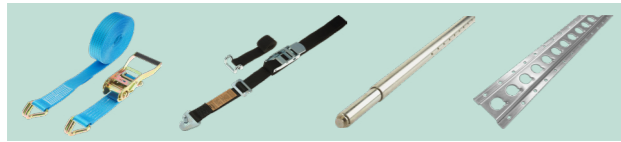

Access Steps & Wheel Chocks

We provide a comprehensive range of robust, safety critical access steps, and wheel chocks. Designed to withstand the harsh and environmentally aggressive locations, together mitigating potential hazards and improve overall operational productivity.

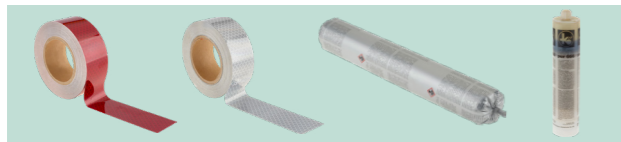

Body Mounting Brackets

Body mounting brackets are the starting point of any commercial vehicle build, and we work closely with all the major chassis manufacturers to provide the most up to date range to keep pace with the constant drive for improvement by chassis manufacturers.

Cargo Control

Our complete collection of cargo control products ensures securing your goods couldn't be easier. Products include lashing rings, anchor cargo track, shoring bars and a full range of ratchet straps manufactured and labelled in accordance with BS EN 12195-2:2001.

Conspicuity Tape & Sealant

We can provide the commercial vehicle body building industry with an extensive range of conspicuity tape, polyurethanes, silicones, MS polymers and polyoxypropylenes, along with a full range of cleaners, primers and bonding agents.

Fuel Protection

Fuel protection is essential for heavy goods vehicles to prevent theft and contamination. Anti-siphoning devices safeguard against fuel theft, ensure reliable performance and cost-effectiveness.

Commercial Vehicle

HGV TRAILER

Our extensive range of transport hardware is suitable for heavy goods vehicles. Our parts are commonly seen on vehicles across Europe and beyond, ensuring safe and efficient daily operations for thousands of vehicles.

As the industry becomes more challenging, commercial vehicle bodybuilders trust our components to enhance their vehicles. Our products are built to endure the toughest conditions and deliver long-lasting performance, providing excellent value for money.

Lashing Rings & Rope Hooks

Indispensable in securing cargo on heavy goods vehicles, lashing rings provide sturdy anchor point for straps and chains, while rope hooks offer versatile tie-down options, ensuring safe and stable transportation of goods.

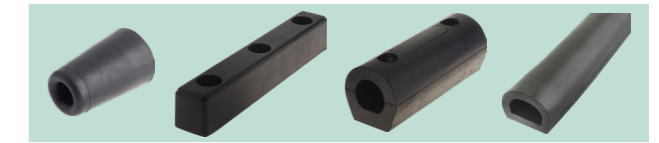

LED Lighting

Unsurpassed for quality and reliability, our LED lighting come with either 3 year, 5 year or lifetime warranties, and are ECE/EMC compliant and can be supplied with Certificates of Conformity to support Whole Vehicle Type Approval legislation.

Rear Door Seals & Door Retainers

Ensuring weatherproofing and cargo security, rear door seals and door retainers are vital for commercial vehicles. Door seals prevent water and dust infiltration, while retainers keep doors securely closed during transit.

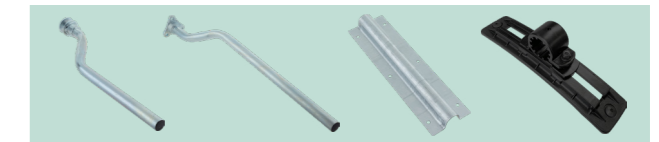

Rubber Buffers

Crucial on heavy goods vehicles, rubber buffers absorb shock and vibrations. Installed strategically, they protect the vehicle structure and cargo, reduce wear, and tear, and enhance overall safety and comfort during transportation.

Toolboxes & Fire Extinguisher Boxes

Essential to the safety on heavy goods vehicles, fire extinguisher boxes securely hold fire extinguishers to promptly address emergencies, ensuring driver and cargo protection. While toolboxes store necessary tools and equipment for maintenance.

Wing Stays & Wing Brackets

Wing stays and brackets provide structural support and stability for the vehicle's wings. They are secure and ensure proper alignment, preventing potential hazards and maintaining vehicle integrity during transportation.

Wings & Spray Flaps

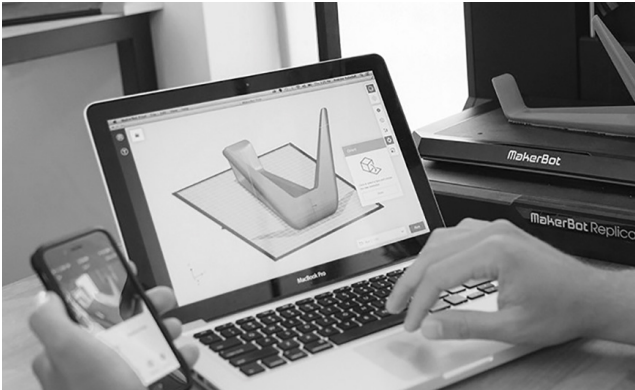

Enhancing road safety and protecting other motorists, wings and spray flaps are essential for heavy goods vehicles. They minimise debris and water spray, whilst reducing road splash, ensuring clear visibility and prevents accidents.

Rear Door Gears & Rear Hinges

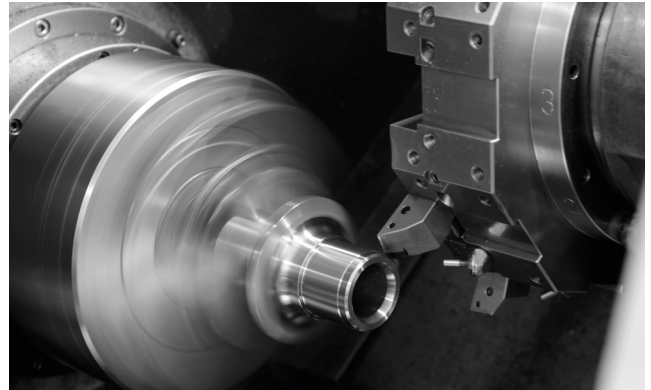

Facilitating smooth and secure loading/unloading operations, rear door gears and hinges are vital components on heavy goods vehicles. They ensure easy access to the cargo area while maintaining structural integrity and safety during transportation.

Supply Without Compromise

Design & Rapid Prototyping

To strive to be the best is just part of our ethos at Albert Jagger, we use the latest technologies to aid our designers so that we can develop the next generation of hardware and components. We use rapid prototyping so that we can see our developing designs and improve on them.

Manufacturing

As part of the process to ensure that we supply our customers with flexibility, versatility and diversity we have our own in-house manufacturing department. As the market leaders in our industry, we don't just supply parts, we design and manufacture them too.

ISO 9001 Quality

We at Albert Jagger Limited recognise the need to focus on customer satisfaction and that means not only meeting their expectations but exceeding them. One of our key objectives is to continually strive to improve quality of both product and service. To achieve this we maintain quality management system compliant with ISO 9001: 2015.

Customer Service

Our future depends on the success of our customers that is why we like to take a long term view to building relationships whilst delivering an unrivalled service and inspiring trust and confidence. With 130 years of history, we wouldn't be in the position we are if we hadn't looked after and listened to our customers.
